# RESEARCH INTERESTS

I am primarily interested in computation and classification of certain classes of Hopf algebras – including quantum groups and Nichols algebras – through the study of their associated geometry, topology, and representation theory. I am studying under the direction of Prof. Julia Pevtsova.

#### **EDUCATION**

**Ph.D.**, Mathematics, September 2016 – June 2021 (expected) University of Washington, Seattle, WA

Bachelor of Science, Mathematics, May 2016

Magna Cum Laude, Phi Beta Kappa, Dean's List, Departmental Honors
University of Southern California, Los Angeles, CA

# Budapest Semesters in Mathematics, Fall 2015

Algebraic Topology, Conjecture & Proof, Cryptography, Differential Geometry Budapest, Hungary

Associates of Science, Mathematics, June 2013 Key of Knowledge, Dean's list, Honors Program Citrus College, Glendora, CA

## RESEARCH EXPERIENCE

## Current Research Direction

I have been studying the papers from Drinfel'd and Ginzburg & Kumar on constructing and computing the cohomology of the (small) quantum groups. The next step will to see how the arguments in the latter were used by Mastnak, Pevtsova, et al to compute the cohomology of finite dimensional pointed Hopf algebras with the hope of extending these results to even wider classes of Hopf algebras.

# Graduate Reading Courses

University of Washington, Seattle, WA

- Group Schemes and Algebraic Groups Prof. Julia Pevtsova Autumn 2018
- Abelian Categories Prof. James Zhang Spring 2018
- Representation Theory Prof. Julia Pevtsova Winter/Spring 2017
- (Simplicial) Cohomology Prof. Steve Mitchell Autumn 2016

# Undergraduate Reading Courses

University of Southern California, Los Angeles, CA

- Tools in Modern Representation Theory. Prof. Paul Sobaje supervised as I explored topics in representations, categories, algebraic topology, module theory, Lie algebras, and support varieties. Spring 2015
- Commutative Rings, Fields, and Galois Theory. Under the direction of Prof. Charles Lanski, I explored topics in graduate algebra with the intent of understanding Galois theory and its applications. Fall 2014

Autumn 2016 - Present

- As an instructor:
  - Math 124 Calculus I (Summer 2018)
  - Math 308 Matrix Algebra (Spring 2019)
- As a teaching assistant:
  - Math 120 Precalculus (Autumn 2017)
  - Math 124 Calculus I (Winter 2017, Winter 2019)
  - Math 125 Calculus II (Autumn 2016, Spring 2017)
  - Math 126 Calculus III (Summer 2017, Winter 2018, Spring 2018)
  - Math 381 Discrete Mathematical Modeling (Autumn 2018)

Lead Teaching Assistant and Instructor

Summer 2016

SCS Noonan Scholars (previously South Central Scholars), Los Angeles, CA

• Independently developed and delivered approximately 50 hours of instruction and five exams to gifted university-bound students in calculus 2 and 3.

Various Teaching and Mentorship Positions

Spring 2012 – Summer 2013

Citrus College, Glendora, CA

- PAGE Program Tutor
- SIGMA Mentor
- Math Tutor

#### **SERVICE**

#### Washington Directed Reading Program

- Supervised an undergraduate student in a reading course based around Rebecca Weber's book Computability Theory in Autumn 2018.
- Assisting in an administrative capacity in Spring 2019.

#### Math Hour Olympiad

University of Washington, Seattle Spring 2018 Volunteer Judge

#### Math Day

University of Washington, Seattle Volunteer 2017 and 2018

# EVENTS ATTENDED

#### **ABC Workshop**

University of Washington, Seattle

November 11, 2018

Geometric and Cohomological Methods in Algebra

# Joint Mathematical Meetings

Seattle, WA January 2016

# SKILLS & HOBBIES

Languages:

- English This is my native language.
- German Ich kann ziemlich gut Deutsch sprechen, lesen, und verstehen!
- Hungarian Beszélek csak egy kicsit magyarul.

Computer Skills: Web/Application Development, Server Administration, Sage, Mathematica, Windows, Linux, FreeBSD.

Life Skills: Critical Thinking, Abstract Reasoning, Communication, Objectivity, Empathy.

Hobbies: Hiking, Jogging, Rollerskating, Appreciating the Wonders of the PNW.
